programming project

Work Team

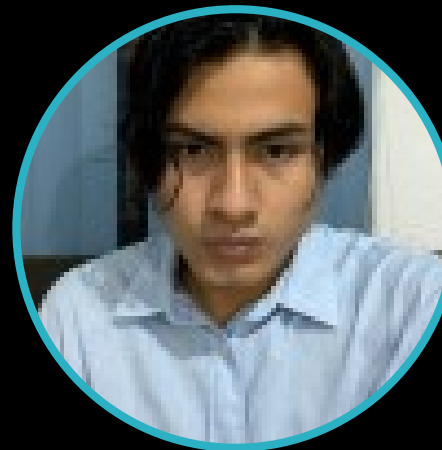

Mario Irabien

Team leader

Victor Rosado

Front-End Developer

Emiliano Arceo

Back-End Developer

Xavier Dzib

Front-End Developer

Carlos Ek

Back-End Developer

What is it about?

This particular project involves the transformation of an outdated accounting system into a modern one known as 'Comercial Pro.' This adaptable software leverages SQL to efficiently manage the company's data. For this specific company, which we will refer to as DN, there arose a need for an extension to oversee the various orders received daily.
